

Policy on Antisocial forces

DREAM's Policy on Antisocial Forces is as follows.

1. Fully recognizing the importance of eliminating any and all relationships with antisocial forces from the perspective of social responsibility, compliance and corporate defense, DREAM postures itself towards the elimination of relationships with antisocial forces.
2. DREAM stands unwaveringly against all improper demands from antisocial forces and responds firmly to such improper demands as an organization.
3. In order to be provided with proper advice and cooperation upon receiving improper demands from antisocial forces, DREAM regularly strengthens ties with external specialized organizations including the police and lawyers.
